

# Table of Contents

<b>Part I. Introduction to MicroTSP</b> .....	1
<b>Chapter 1. What MicroTSP Does and What Equipment You Need to Run It</b> .....	1
1.1 What it Does.....	1
1.2 Choosing Your Equipment.....	4
1.3 A Little Vocabulary.....	4
<b>Chapter 2. Getting Started:</b> .....	7
2.1 Starting <b>MicroTSP</b> .....	8
2.2 Entering the Data.....	9
2.3 Manipulating the Data.....	9
2.4 Displaying Data.....	11
2.5 A Regression.....	12
2.6 Finishing Your Session.....	13
<b>Chapter 3. MicroTSP Fundamentals</b> .....	15
3.1 Some General Points.....	15
3.2 Running <b>MicroTSP</b> .....	16
3.3 <b>SMPL</b> : Setting the Sample of Observations.....	18
3.4 <b>GENR</b> : Creating New Series by Transforming Existing Ones.....	20
3.5 Statistics.....	21
3.6 Forecasting.....	22
3.7 Data Files on Disk.....	22
3.8 The <b>MicroTSP</b> Sample Data.....	23
3.9 Looking at Data.....	24
3.10 Other Operations You Will Eventually Want to Learn About.....	25
<b>Part II. Techniques and Case Studies</b> .....	29
<b>Chapter 4. Basic Regression</b> .....	29
4.1 Case Study of Telephone Demand.....	29
4.2 Exercises.....	42

<b>Chapter 5. Time Series Regression</b> .....	43
5.1 Case Study of Auto Sales .....	43
5.2 Exercises .....	54
<b>Chapter 6. Forecasting</b> .....	55
6.1 Sales Forecasting for Holiday Inns.....	55
6.2 Forecasting Auto Sales .....	66
6.3 Exercises .....	75
<b>Chapter 7. Autoregressive and Moving Average Models</b> .....	77
7.1 Forecasting the Treasury Bill Rate.....	77
7.2 Using Information From the Stock Market to Improve the Forecast of the Treasury Bill Rate .....	87
7.3 Exercises .....	90
<b>Chapter 8. Simultaneous Models</b> .....	91
8.1 Two Stage Least Squares.....	92
8.2 Simulation and Model Solution.....	97
8.3 Exercises .....	102
<b>Chapter 9. More on Regression, Forecasting, and Simulation</b> .....	103
9.1 Where To Get More Information.....	103
9.2 Where to Read in Pindyck and Rubinfeld, Johnston, and Box and Jenkins on <b>MicroTSP</b> Commands .....	105
9.3 Definitions of Regression Results.....	105
9.4 The Natural Logarithm.....	107
<b>Chapter 10. Obtaining and Using Data</b> .....	109
10.1 Basic Sources for Data .....	109
10.2 Obtaining Data Electronically.....	111
<b>Chapter 11. Using a Spreadsheet in Conjunction with MicroTSP</b> .....	115
11.1 The Holiday Inns Forecast in Excel .....	115
11.2 Exercises .....	122

<b>Part III. Narrative Description of MicroTSP's Operations</b> .....	123
<b>Chapter 12. Handling Data</b> .....	123
12.1 Setting the Sample of Observations: SMPL.....	124
12.2 The Data Window .....	127
12.3 Generating New Series From Existing Ones.....	132
12.4 Calculator Mode .....	141
12.5 Frequency Conversion .....	141
12.6 Creating, Saving, and Loading Work Files.....	143
12.7 Expanding the Work File .....	144
12.8 Data Bank Files .....	145
12.9 Labels in Data Bank Files .....	147
12.10 Housekeeping Operations .....	148
12.11 Sorting Work Files.....	148
<b>Chapter 13. Displaying Data</b> .....	151
13.1 The TRACE, PON and POFF Commands.....	151
13.2 Displaying Data On The Screen or Printer .....	152
13.3 Plotting Line Graphs .....	153
13.4 Scatter Diagrams .....	156
13.5 Bar Graphs.....	157
13.6 Pie Charts.....	159
13.7 Graphics.....	159
<b>Chapter 14. Statistical Operations</b> .....	163
14.1 Descriptive Statistics.....	163
14.2 Ordinary Least Squares .....	165
14.3 Two Stage Least Squares.....	166
14.4 First Order Serial Correlation.....	167
14.5 General Autoregressive and Moving Average Error Processes.....	169
14.6 Starting Values for ARMA Estimation .....	173
14.7 Two Stage Least Squares with Serial Correlation .....	174
14.8 Polynomial Distributed Lags .....	175
14.9 Weighted LS, TSLS, NLS and COVA.....	176
14.10 Using Coefficients and Residuals in Subsequent Commands.....	177
14.11 Seasonal Adjustment .....	177
<b>Chapter 15. Advanced Statistics</b> .....	179
15.1 Nonlinear Least Squares.....	179

15.2	Logit and Probit Models.....	181
15.3	System Estimation.....	183
15.4	Vector Autoregression.....	187
<b>Chapter 16.</b>	<b>Forecasting</b> .....	<b>197</b>
16.1	Computing Forecasts: The FORCST and FIT Commands.....	197
16.2	Displaying the Current Equation: SHOWEQ .....	201
16.3	Saving an Equation for Forecasting: STOREQ.....	201
16.4	Fetching an Equation for Forecasting: FETEQ.....	201
16.5	Exponential Smoothing.....	202
<b>Chapter 17.</b>	<b>Model Simulation</b> .....	<b>207</b>
17.1	Models.....	207
17.2	Solving Models .....	208
17.3	The Assign Command.....	211
<b>Chapter 18.</b>	<b>Other MicroTSP Operations</b> .....	<b>213</b>
18.1	Data Files with Multiple Series .....	213
18.2	Series Groups .....	215
18.3	Batch Operation and <b>MicroTSP</b> Programs.....	217
18.4	FOR..NEXT Loops.....	219
18.5	Text Editing.....	222
18.6	File Types .....	223
18.7	Memory Allocation .....	225
18.8	The C Command .....	226
18.9	The FREMEM Command.....	226
<b>Part IV.</b>	<b>MicroTSP Reference</b> .....	<b>227</b>
<b>Appendices</b>		
Appendix A.	<b>MicroTSP</b> Error Messages.....	283
Appendix B.	Command Options.....	289
<b>Index</b> .....		<b>295</b>
