

Table of Contents

intro	Introduction to longitudinal/panel data manual
xt	Introduction to xt commands
estimation options	Estimation options
quadchk	Check sensitivity of quadrature approximation
xtabond	Arellano–Bond linear, dynamic panel-data estimation
xtabond postestimation	Postestimation tools for xtabond
xtcloglog	Random-effects and population-averaged cloglog models
xtcloglog postestimation	Postestimation tools for xtcloglog
xtdata	Faster specification searches with xt data
xtdes	Describe pattern of xt data
xtfrontier	Stochastic frontier models for panel data
xtfrontier postestimation	Postestimation tools for xtfrontier
xtgee	Fit population-averaged panel-data models using GEE
xtgee postestimation	Postestimation tools for xtgee
xtgls	Fit panel-data models using GLS
xtgls postestimation	Postestimation tools for xtgls
xhtaylor	Hausman–Taylor estimator for error components models
xhtaylor postestimation	Postestimation tools for xhtaylor
xtintreg	Random-effects interval data regression models
xtintreg postestimation	Postestimation tools for xtintreg
xtivreg	Instrumental variables and two-stage least squares for panel-data models
xtivreg postestimation	Postestimation tools for xtivreg
xtline	Panel-data line plots
xtlogit	Fixed-effects, random-effects, and population-averaged logit models
xtlogit postestimation	Postestimation tools for xtlogit
xtmixed	Multilevel mixed-effects linear regression
xtmixed postestimation	Postestimation tools for xtmixed
xtnbreg	Fixed-effects, random-effects, and population-averaged negative binomial models
xtnbreg postestimation	Postestimation tools for xtnbreg
xtpcse	OLS or Prais–Winsten models with panel-corrected standard errors
xtpcse postestimation	Postestimation tools for xtpcse
xtpoisson	Fixed-effects, random-effects, and population-averaged Poisson models
xtpoisson postestimation	Postestimation tools for xtpoisson
xtprobit	Random-effects and population-averaged probit models
xtprobit postestimation	Postestimation tools for xtprobit
xtrc	Random-coefficients models
xtrc postestimation	Postestimation tools for xtrc

xtreg	Fixed-, between-, and random-effects, and population-averaged linear models
xtreg postestimation	Postestimation tools for xtreg
xtregar	Fixed- and random-effects linear models with an AR(1) disturbance
xtregar postestimation	Postestimation tools for xtregar
xtsum	Summarize xt data
xttab	Tabulate xt data
xttobit	Random-effects tobit models
xttobit postestimation	Postestimation tools for xttobit
glossary	Glossary of terms
